

SAFETY DATA SHEET

Revision date: 29-Jul-2025

Revision Number 1

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product identifier

Product Name MAX PLUS GOLD

Product Code(s) 43777 (200L drum)

Other means of identification

CAS No. Mixture

Recommended use of the chemical and restrictions on use

Recommended use Animal food additive.

Uses advised against No information available.

Details of the supplier of the safety data sheet

Supplier

Vitapower Limited

NZBN: 9429036796083

Address: 120 Pukiti Drive, PO Box 448, Wanganui, 4540 New Zealand

Telephone Number: +64 6 349 1005

For further information, please contact

Contact Point info@vitapower.co.nz

Emergency telephone number

Emergency Telephone 0800 848 276 (ALL HOURS)

Please ensure you refer to the limitations of this Safety Data Sheet as set out in the "Other Information" section at the end of this Data Sheet.

2. HAZARDS IDENTIFICATION

Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.

Classified as hazardous according to criteria in the Hazardous Substances (Hazard Classification) Notice 2020.

GHS Classification

SIGNAL WORD

DANGER

Animal Nutritional and Animal Care Products Group Standard 2020

Approval Number: HSR002521

Acute oral toxicity	Category 2
Serious eye damage/eye irritation	Category 2
Carcinogenicity	Category 2

Label elements**Hazard statements**

H300 Fatal if swallowed
 H319 Causes serious eye irritation
 H351 Suspected of causing cancer

Precautionary Statements - Prevention

P103 Read label before use
 P201 Obtain special instructions before use
 P202 Do not handle until all safety precautions have been read and understood
 P264 Wash eyes and hands thoroughly after handling
 P270 Do not eat, smoke or drink when using this product
 P280 Wear protective gloves / protective clothing / eye protection / face protection
 P281 Use personal protective equipment as required

Precautionary Statements - Response

P301 + P316 If swallowed: get emergency medical help immediately
 P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
 P308 + P313 If exposed or concerned: Get medical advice/attention
 P321 See first aid instructions on the label of this product
 P330 Rinse mouth if swallowed
 P337 + P313 If eye irritation persists: Get medical advice/attention

Precautionary Statements - Storage

P405 Store locked up

Precautionary Statements - Disposal

P501 Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable

Other hazards which do not result in classification**3. COMPOSITION/INFORMATION ON INGREDIENTS****Substance**

Chemical name	CAS No.	Weight-%
Cobalt Chelate	15137-09-4	<10%
Calcium Chloride	10043-52-4	<10%
Sodium Selenate	13410-01-0	<10%
Other ingredients determined not to be hazardous	-	Balance

4. FIRST AID MEASURES

Description of first aid measures

General advice	For advice, contact a Poisons Information Centre or a doctor.
Emergency telephone number	Poisons Information Center, New Zealand: 0800 764 766
Inhalation	Remove to fresh air. If breathing is difficult, (trained personnel should) give oxygen. Give artificial respiration if victim is not breathing. Get medical attention immediately if symptoms occur.
Eye contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Remove contact lenses, if present and easy to do. Continue rinsing. Do not rub affected area. Get medical attention if irritation develops and persists.
Skin contact	Wash off immediately with warm soapy water for at least 15 minutes. Get medical attention if irritation develops and persists. Take off contaminated clothing and wash it before reuse.
Ingestion	Clean mouth with water and drink plenty of water afterwards. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, lean patient forward or place on left side to maintain an open airway and prevent aspiration. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.
Self-protection of the first aider	Avoid contact with skin, eyes, and clothing. Wear personal protective clothing (see section 8).

Most important symptoms and effects, both acute and delayed

Symptoms	Irritation. May cause redness and tearing of the eyes.
-----------------	--

Indication of any immediate medical attention and special treatment needed

Note to physicians	Treat symptomatically.
---------------------------	------------------------

5. FIRE FIGHTING MEASURES

Special firefighting instructions

Suitable extinguishing media	Dry chemical, CO ₂ , water spray or regular foam. Do not use water jet.
Unsuitable extinguishing media	No information available.
Specific hazards arising from the chemical	Combustible. May burn but does not ignite readily.
Hazardous products of combustion	Fire may produce irritating or toxic gases including Carbon oxides, Nitrogen oxides and metal oxides
Special protective equipment for fire-fighters	Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid contact with skin and eyes. Ensure adequate ventilation. Do not touch or walk through spilled material. Stop leak if you can do it without risk. Do not eat, drink or smoke when using this product. Use personal protective equipment as required. Wash thoroughly after handling.
Other information	Refer to protective measures listed in Sections 7 and 8.
For emergency responders	Use personal protection recommended in Section 8.

Environmental precautions

Environmental precautions Prevent further leakage or spillage if safe to do so. Prevent entry into drains and waterways.

Methods and material for containment and cleaning up

Methods for containment Spill or leak should be isolated immediately. Keep unauthorised personnel away. Prevent further leakage or spillage if safe to do so. Contain run-off from fire control or dilution water – run-off may cause pollution.

Methods for cleaning up Use appropriate personal protective equipment (PPE). Carefully shovel or sweep up spilled material and place in suitable container. Avoid generating dust.

Precautions to prevent secondary hazards

Prevention of secondary hazards Ventilate spillage area. Clean contaminated objects and areas thoroughly observing environmental regulations.

7. HANDLING AND STORAGE**Precautions for safe handling**

Advice on safe handling Obtain special instructions before use. Ensure adequate ventilation. Use personal protection equipment. Safety showers and eyewash facilities should be provided within the immediate work area for emergency use. Wear protective gloves / protective clothing / eye protection / face protection and suitable respirator (see Section 8).

General hygiene considerations Avoid contact with eyes. Wash eyes and hands thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place, out of direct sunlight. Protect from moisture. Keep container closed when not in use. Keep in original container. Keep away from heat and sources of ignition. No smoking. Keep away from incompatible materials. Store locked up. Store at 10 - 25°C

Incompatible materials Strong acids, borane/boron oxide, zinc, calcium oxide, methyl vinyl ether, strong oxidizing agents. Water.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION**Control parameters**

Exposure Limits No value assigned for this specific material by the New Zealand Workplace Health & Safety Authority.

Appropriate engineering controls

Engineering controls Apply technical measures to comply with the occupational exposure limits. Handle in a fully enclosed system and equipment. If in the handling and application of this material, safe exposure levels could be exceeded, the use of engineering controls such as local exhaust ventilation must be considered and the results documented. If achieving safe exposure levels does not require engineering controls, then a detailed and documented risk assessment using the relevant Personal Protective Equipment (PPE) (refer to PPE section below) as a basis must be carried out to determine the minimum PPE requirements.

Individual protection measures, such as personal protective equipment

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES

Eye/face protection	Safety/chemical goggles.
Hand protection	Handle with impervious gloves.
Skin and body protection	Wear suitable protective clothing to avoid skin contact. Boots. Overalls.
Respiratory protection	Not stated
Environmental exposure controls	No information available.

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Physical state	Liquid
Appearance	Smooth and slick oily liquid
Colour	Pale tan or light caramel
Odour	Mild garlic
Odour threshold	No information available.

<u>Property</u>	<u>Values</u>	<u>Remarks • Method</u>
pH	3.5	None known
Melting point / freezing point	No data available	None known
Boiling point / boiling range	No data available	None known
Flash point	Not applicable	None known
Evaporation rate	No data available	None known

Flammability (solid, gas)	No data available	None known
----------------------------------	-------------------	------------

Flammability Limit in Air		None known
----------------------------------	--	------------

Upper flammability or explosive limits	No data available
---	-------------------

Lower flammability or explosive limits	No data available
---	-------------------

Vapor pressure	No data available	None known
Vapor density	No data available	None known
Relative density	0.96kg/L	
Water solubility	Slightly soluble	None known
Solubility(ies)	No data available	None known
Partition coefficient	No data available	None known
Autoignition temperature	No data available	None known
Decomposition temperature	No data available	None known
Kinematic viscosity	No data available	None known
Dynamic viscosity	No data available	

Other information**10. STABILITY AND REACTIVITY****Reactivity**

Reactivity Hydrophobic – forms a distinct layer on top of water and repels water-based substances.

Chemical stability

Stability Stable under recommended storage conditions.

Explosion data

Sensitivity to mechanical impact None.

Sensitivity to static discharge None.

Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

Conditions to avoid

Conditions to avoid Moisture. Avoid generating dust. Avoid excessive heat and sunlight.

Incompatible materials

Incompatible materials Strong acids, borane/boron oxide, zinc, calcium oxide, methyl vinyl ether, strong oxidizing agents. Water.

Hazardous decomposition products

Hazardous decomposition products Calcium oxide. Hydrogen chloride. Carbon oxides. Nitrogen oxides. Metal oxides.

11. TOXICOLOGICAL INFORMATION**Acute toxicity****Information on likely routes of exposure**

Product Information	No adverse health effects expected if the chemical is handled in accordance with this Safety Data Sheet and the chemical label. Symptoms or effects that may arise if the chemical is mishandled and overexposure occurs are:
Inhalation	May be harmful if inhaled.
Eye contact	Causes serious eye irritation.
Skin contact	Causes skin irritation. Suspected of causing cancer.

Ingestion	May be harmful if swallowed.
Symptoms	Irritation. May cause redness and tearing of the eyes.

Acute toxicity**Numerical measures of toxicity**

Chemical name	Oral LD50	Dermal LD50	Inhalation LC50
Calcium chloride	> 1000 mg/kg (Rat)	> 5000 mg/kg (Rabbit)	-
Cobalt Chelate	> 6671 mg/kg (Rat)	-	-
Sodium Selenate	> 1.6mg/kg (Rat)	-	-

See section 16 for terms and abbreviations

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes serious eye irritation.
Respiratory or skin sensitization	No information available.
Germ cell mutagenicity	No information available.
Carcinogenicity	Suspected of causing cancer.
Reproductive toxicity	No information available.
STOT - single exposure	May cause respiratory irritation.
STOT - repeated exposure	May cause damage to organs through prolonged or repeated exposure.
Aspiration hazard	No information available.

12. ECOLOGICAL INFORMATION**Ecotoxicity**

Ecotoxicity	Keep out of waterways.
Terrestrial ecotoxicity	There is no data for this product.

Chemical name	Algae/aquatic plants	Fish	Crustacea
Calcium chloride	-	LC50: =10650mg/L (96h, Lepomis macrochirus)	LC50: 2280000 - 3948000µg/L (48h, Daphnia magna)
Cobalt Chelate	-	-	-

Persistence and degradability	No information available
Mobility	No information available.
Bioaccumulation	No information available
Other adverse effects	No information available.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Waste from residues/unused products	Dispose of product in packaging/container in a way that is consistent with the Hazardous Substances (Disposal) Notice 2017 and the Act, and Hazardous Substances (Amendments and Revocations) Notice 2020. Treat the chemical using a method that changes the characteristics or composition of the chemical so that the chemical is no longer a hazardous chemical; or export the chemical from New Zealand as waste.
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

<u>ROAD AND RAIL TRANSPORT</u>	Not classified as a Dangerous Good under NZS 5433 Transport of Dangerous Goods on Land; NON-DANGEROUS GOODS.
<u>IATA</u>	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.
<u>IMDG</u>	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

New Zealand	HSR002521 Animal Nutritional and Animal Care Products Group Standard 2020.
National regulations	See section 8 for national exposure control parameters The Agricultural Compounds and Veterinary Medicines Act 1997 is applicable to this substance

International Inventories

NZIoC	The components of this product are listed on the New Zealand Inventory of Chemicals.
TSCA	Not determined. Contact supplier for inventory compliance status.
DSL/NDL	Not determined. Contact supplier for inventory compliance status.
EINECS/ELINCS	Not determined. Contact supplier for inventory compliance status.
ENCS	Not determined. Contact supplier for inventory compliance status.
IECSC	Not determined. Contact supplier for inventory compliance status.
KECL	Not determined. Contact supplier for inventory compliance status.
PICCS	Not determined. Contact supplier for inventory compliance status.
AIIC	The components of this product are listed on the Australian Inventory of Industrial Chemicals.

Legend:

NZIoC - New Zealand Inventory of Chemicals
TSCA - United States Toxic Substances Control Act Section 8(b) Inventory
DSL/NDL - Canadian Domestic Substances List/Non-Domestic Substances List
EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances
ENCS - Japan Existing and New Chemical Substances
IECSC - China Inventory of Existing Chemical Substances
KECL - Korean Existing and Evaluated Chemical Substances
PICCS - Philippines Inventory of Chemicals and Chemical Substances
AIIC - Australian Inventory of Industrial Chemicals

International Regulations**The Montreal Protocol on Substances that Deplete the Ozone Layer** Not applicable**The Stockholm Convention on Persistent Organic Pollutants** Not applicable**The Rotterdam Convention** Not applicable**16. OTHER INFORMATION**

Supplier Safety Data Sheet 07/ 2025

Prepared By This Safety Data Sheet has been prepared on behalf of Vitapower Limited**Issuing Date:** 29-Jul-2025**Reason(s) For Issue:** Initial / Primary SDS
Determination of Hazardous Chemical Classification**Revision Note:**

None

Key or legend to abbreviations and acronyms used in the safety data sheet**Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

TWA	TWA (time-weighted average)	STEL	STEL (Short Term Exposure Limit)
Ceiling	Maximum limit value	*	Skin designation
C	Carcinogen

Disclaimer

This SDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Vitapower Limited cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material.

If clarification or further information is needed, the user should contact their Vitapower representative or Vitapower Limited at the contact details on page 1.

Vitapower Limited's responsibility for the material as sold is subject to the terms and conditions of sale, a copy of which is available upon request.
