Nutritional Supplementary Boost

Ed Morrows Farm use palaMOUNTAINS REVIVE for monitoring their Ovine Faecal Egg Count

“After the 4th Jan drench of palaMOUNTAINS Revive I was so impressed with the recovery of the lighter stud ewes I decided to drench the rest of my stud ewes 6 days later. Since doing this they have all put on great condition and are totally clean of dags.”

4th Jan 2016 Drench:
Egg Count: 10,150

16 January 2018:
Egg Count: 1930
